

Choose hygiene

Panelit panels are made of high quality, scratch- and moisture-resistant pvc. The low-maintenance material is perfect for wall and ceiling coverings, particularly in damp and wet areas.

a heat and sound insulator

easy to clean thanks to the smooth surface

Panelit is *less sensitive to condensation, so less scale forms*

hygienic thanks to the virtually seamless assembly

(no chance of bacterial or fungal growth)

Choose durability

With Panelit panels, you are choosing quality and durability. The high quality pvc is colourfast and water-resistant. The surface is easy to clean and will continue to look good, year in year out.

durable and practical

highly moisture-resistant

Panelit is *flexible and therefore less affected by settlement of walls and ceilings*

colourfast and scratch-resistant

100% recyclable
